

**League of Neurologists prim
Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev
in partnership with
the Kazakhstan National League Against Epilepsy and
the Association for the Study of Headache
with the support of the
Ministry of Healthcare of the Republic of Kazakhstan
the Almaty Public Health Department
Kazakhstan's Medical University "KSPH"
are honoured to invite you to participate in the
16th Annual Scientific and Practical Conference
with international participation "Kaishibayev Readings",
to be held on 8–10 October 2026 at the
House of Receptions, 44 Kurmangazy Street, Almaty**

8 October 2026 – Day One

08.00-08.40	Registration	
08.40-09.00	Opening of the 16th Scientific and Practical Conference “Kaishibayev Readings” Welcome addresses Manas Yembergenovich Ramazanov , Vice Minister of Healthcare of the Republic of Kazakhstan Marat Orumbasarovich Pashimov , Head of the Almaty Public Health Department Dr Skender Sylva , WHO Representative in Kazakhstan, Head of the WHO Country Office Alla Borisovna Guekht , Corresponding Member of the Russian Academy of Sciences, Doctor of Medical Sciences, Professor, President of the International League Against Epilepsy (ILAE), Past Trustee of the World Federation of Neurology (WFN) Ardak Mukhanbetzhanovna Auezova , PhD, Rector of the Kazakhstan's Medical University “KSPH”	
09.00-10.30	Plenary Session with the support of the WHO Regional Office in Kazakhstan “Intersectoral Global Action Plan on Epilepsy and Other Neurological Disorders 2022 – 2031 (IGAP)” Moderators: G. S. Kaishibayeva, L. O. Dairbayeva, L. Zh. Utemissova	
	Presentation topic	Speaker
09.00-09.15	From Global Framework to Country Action: IGAP Implementation in Kazakhstan	Utemissova Laura , MPH, National Public Health Programme Coordinator, WHO Country Office in Kazakhstan (Astana, Kazakhstan)
09.15-09.30	IGAP in the Republic of Moldova: Progress and Collaboration with WHO	Dr Vitalie Chiosa , Associate Professor, Department of Neurology, Nicolae Testemitanu State University of Medicine and Pharmacy of the Republic of Moldova; Coordinator of the National Centre for Epileptology (Republic of Moldova)
09.30-09.45	Presentation topic and speaker to be confirmed	WHO Regional Office, Armenia
09.45-10.00	Presentation topic and speaker to be confirmed	WHO Regional Office, Kyrgyzstan
10.00-10.15	National IGAP Implementation Plan	Leila Oralgazyevna Dairbayeva , MD, MBA, Scientific and Clinical Centre for Neurology, Epileptology and Rehabilitation; Chief External Consultant in Epileptology for Almaty; President of the Kazakhstan National League Against Epilepsy; member of the League of Neurologists prim and WFN (Almaty, Astana, Kazakhstan)
10.15-10.30	Discussion. Open microphone	

10.30-11.00	Coffee break Workshop “TMS in Post-Stroke Neurorehabilitation: From Assessment to Protocol” at the Medical Solutions stand (free admission)	
11.00-13.30	Symposium and Discussion “Dementia: Diagnostic and Treatment Strategies”	
	Presentation topic	Speaker
11.00-12.00 Kusum Satellite Symposium	A New Era in Dementia Treatment: Current Opportunities and Real - World Practice	Zhibek Alilulayevna Zholdassova , Candidate of Medical Sciences, recipient of the Excellence in Healthcare award, Head of the Centre for the Treatment of Neuroses and Alzheimer’s Disease (Almaty, Kazakhstan)
	Draft Clinical Protocol for the Diagnosis and Treatment of Dementia in the Republic of Kazakhstan (Alzheimer’s Disease, Vascular Dementia, Frontotemporal Dementia, Dementia with Lewy Bodies and Other Types)	Gulnaz Smagulovna Kaishibayeva , Candidate of Medical Sciences, Director of the Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev ; Head of the Neurology Course Kazakhstan’s Medical University “KSPH ; Chair of the League of Neurologists prim ; member of WFN, IASP and MDS (Almaty, Kazakhstan)
	Discussion. Open microphone	
12.00-13.00 Roche Kazakhstan Satellite Symposium	The Molecular Landscape of Neurodegeneration: p -tau181 as a Key Predictor and Indicator of Alzheimer’s Disease Progression	Zhibek Alilulayevna Zholdassova , Candidate of Medical Sciences, recipient of the Excellence in Healthcare award, Head of the Centre for the Treatment of Neuroses and Alzheimer’s Disease (Almaty, Kazakhstan)
	Alzheimer’s Disease Biomarkers: What Is New in Laboratory Diagnostics?	Valentina Vidranski , PhD, Specialist in Medical Biochemistry and Laboratory Medicine, Acting Head of the Division of Laboratory Oncology, Clinical Institute of Chemistry, Sestre milosrdnice University Hospital Centre (Zagreb, Croatia)
	Discussion. Open microphone	
13.00-13.20	Dementia in Prion Diseases	Adlet Akhmetovich Mukhamedzhanov , Neurologist, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev ; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)

13.20-13.30	Discussion. Open microphone	
13.30-15.30	Symposium “Epilepsy Today: Global Challenges and National Priorities” Moderators: T. N. Khaibullin, L. O. Dairbayeva	
	Presentation topic	Speaker
13.30-14.00	Personalised Epilepsy Therapy: From Seizure Classification and the Patient Pathway to Treatment Selection	Leila Oralgazyevna Dairbayeva, MD, MBA, Scientific and Clinical Centre for Neurology, Epileptology and Rehabilitation; Chief External Consultant in Epileptology for Almaty; President of the Kazakhstan National League Against Epilepsy; member of the League of Neurologists prim and WFN (Almaty, Astana, Kazakhstan)
14.00-14.30	Relative Drug Resistance in Epilepsy: Causes and Strategies to Overcome It	Talgat Nurmukhanovich Khaibullin, Doctor of Medical Sciences, Professor, Department of Neurology, Ophthalmology and Otorhinolaryngology, Semey Medical University (non-profit JSC) (Semey, Kazakhstan)
14.30-15.00	Epilepsy and Reproductive Health: A Practical Management Algorithm for Girls and Women	Leila Oralgazyevna Dairbayeva, MD, MBA, Scientific and Clinical Centre for Neurology, Epileptology and Rehabilitation; Chief External Consultant in Epileptology for Almaty; President of the Kazakhstan National League Against Epilepsy; member of the League of Neurologists prim and WFN (Almaty, Astana, Kazakhstan)
15.00-15.20	Therapeutic Options for Drug - Resistant Epilepsy. Vagus Nerve Stimulation (VNS)	Raushan Bazargaliyevna Kenzhegulova, Candidate of Medical Sciences, Neurologist, Neurophysiologist, Neurolab Medical Centre (Astana, Kazakhstan)
15.20-15.30	Discussion. Open microphone	
15.30-16.00	Coffee break	
16.00-18.30	Symposium “Neurodegenerative Diseases: From Accurate Diagnosis to Appropriate Treatment” Moderators: D. S. Druzhinin, G. S. Kaishibayeva	
	Presentation topic	Speaker
16.00-16.30	Amyotrophic Lateral Sclerosis: Clinical Heterogeneity, Monitoring and Treatment Strategy	Dmitry Sergeyevich Druzhinin, Doctor of Medical Sciences, Professor, Sklifosovsky Department of Nervous Diseases, Sechenov University (Moscow, Russia)

16.30-17.00	TMS in Amyotrophic Lateral Sclerosis: Clinical Cases	Sholpan Bakht-Polatovna Daniyarova , Neurorehabilitation Specialist, Clinical Neurophysiologist, Unique Champion Centre for Adaptive Sports and Sports Wellness, Basqa Development Space (Shymkent, Kazakhstan)
17.00-17.30	Parkinsonism in Clinical Practice: How to Make a Differential Diagnosis	Ayaulym Kaziqzy Nagashybay , Neurologist; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; member of the League of Neurologists prim, WFN and MDS (Almaty, Kazakhstan)
17.30-18.00	Advanced Parkinson's Disease: Choosing the Optimal Treatment Strategy	Feruza Baizhanovna Sultamuratova , Neurologist; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; member of the League of Neurologists prim, WFN and MDS (Almaty, Kazakhstan)
18.00-18.30	Discussion. Open microphone End of Day One. Exhibition. Preview of Day Two	

9 October 2026 – Day Two

08.00-08.45	Registration	
08.45-09.00	Opening of Day Two. Announcements	
09.00-11.30	Symposium “Interdisciplinary Collaboration in Primary Care: Similarities and Differences in Diagnosis and Treatment”. Part 1 Moderators: N. A. Zharkinbekova, N. I. Raspopova	
	Presentation topic	Speaker
09.00-09.30	Mild Cognitive Impairment: A Fundamental Shift in Diagnosis. Why Clinical Practice Must Change Today	Larisa Bulatovna Kuanova , Doctor of Medical Sciences, Professor, Al -Farabi Kazakh National University (non-profit JSC); member of ISTAART (International Society to Advance Alzheimer's Research and Treatment), Biofluid Based Biomarkers (Almaty, Kazakhstan)
09.30-10.00	Neuroplasticity and Neuroprotection: Current Therapeutic Options	Nazira Asanovna Zharkinbekova , Candidate of Medical Sciences, Professor, Head of the Department of Neurology, Psychiatry, Rehabilitation and Neurosurgery at the South Kazakhstan Medical Academy, Chief External Consultant in Neurology for the Turkestan Regional Health Department (Shymkent, Kazakhstan).
10.00-10.30	Affective Disorders in Patients with Chronic Cerebral Ischaemia	Natalya Ivanovna Raspopova , Doctor of Medical Sciences, Psychiatrist of the Highest Qualification Category, Associate Professor, Department of Psychiatry and Addiction Medicine, Kazakhstan - Russian Medical University (non -governmental educational institution) (Almaty, Kazakhstan)
10.30-11.00	The Anxiety Spectrum in Neurological Practice Supported by Acino Kaz	Nazira Asanovna Zharkinbekova , Candidate of Medical Sciences, Professor, Head of the Department of Neurology, Psychiatry, Rehabilitation and Neurosurgery at the South Kazakhstan Medical Academy, Chief External Consultant in Neurology for the Turkestan Regional Health Department (Shymkent, Kazakhstan).
11.00-11.20	Obesity, Diabetes Mellitus and Cerebrovascular Risk: The Potential of GLP-1 Agonists to Reduce Stroke Incidence in Patients with Comorbidities	Ainur Kasimbekovna Dosanova , Candidate of Medical Sciences, Associate Professor, Department of Endocrinology, Kazakhstan -Russian Medical University (non-governmental educational institution); Secretary of the Republican Public Association “Association of Endocrinologists of Kazakhstan” (Almaty, Kazakhstan)
11.20-11.30	Discussion. Open microphone	

11.30-12.00	Coffee break	
12.00-13.30	Symposium “Interdisciplinary Collaboration in Primary Care: Similarities and Differences in Diagnosis and Treatment”. Part 2 Moderators: S. S. Zhakenova, K. G. Zhumagulova	
	Presentation topic	Speaker
12.00-12.30	Current Perspectives on Dizziness and Vertigo: Diagnostic Algorithms and Treatment Methods	Professor Måns Magnusson , Chair of Otorhinolaryngology (ORL), Lund University and Lund University Hospital; Deputy Head of the Department of Clinical Sciences, Lund University; Chair of the Standing Committee on Balance and Equilibrium of IFOS (International Federation of Otorhinolaryngological Societies) (Sweden)
12.30-12.50	Ménière’s Disease and Vestibular Migraine: Similarities, Differences and Diagnostic Challenges	Saira Sakhipkereyevna Zhakenova , Candidate of Medical Sciences, ENT Specialist and Otoneurologist, Head of Zhakenova ENT Clinic; Senior Lecturer in Otorhinolaryngology, Kazakhstan -Russian Medical University (non-governmental educational institution) (Almaty, Kazakhstan)
12.50-13.10	Cognitive Impairment as a Manifestation of Depression: What Must Not Be Missed	Guzel Baurzhanovna Shider , Neurologist, Movement Disorders Specialist, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); member of the League of Neurologists prim, WFN and MDS (Almaty, Kazakhstan)
13.10-13.30	Discussion. Open microphone	
13.30-15.40	Multidisciplinary Symposium “Pain Syndromes in General Medical Practice” Moderators: G. A. Togizbayev, A. S. Kudaibergenova, R. P. Lyssenko	
	Presentation topic	Speaker
13.30-14.00	Knee Osteoarthritis: From Nociception to Neuropathic Pain	Galymzhan Asylbekovich Togizbayev , Doctor of Medical Sciences, Deputy Chairman of the Management Board for Therapeutic Services at the Research Institute of Cardiology and Internal Diseases, Chairman of the Qazaq College of Rheumatology (QCR), President of the Eurasian League of Rheumatologists (LEAR), Vice President of the Asia Pacific League of Associations for Rheumatology (APLAR), Chief External Consultant in Rheumatology to the Ministry of Health of the Republic of Kazakhstan, and Member of the Public Council of the Ministry of Health (Almaty, Kazakhstan)

14.00-14.20	The Patient with Headache: From Symptom to Diagnosis in 20 Minutes	Roman Petrovich Lyssenko , Neurologist, President of the Association for the Study of Headache; member of the League of Neurologists prim and WFN; Head of Clinic Dr. Lyssenko (Almaty, Kazakhstan)
14.20-14.50	Pain Syndromes: From Pain Mechanisms to Rational Therapy	Aigul Serikovna Kudaibergenova , Candidate of Medical Sciences, Neurologist, Head of the Continuing Professional Development Course "Neurology and Neurorehabilitation", Institute of Postgraduate Education, Kazakhstan -Russian Medical University (non-governmental educational institution); member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
14.50-15.10	The Pain Balance: Why the Analgesic Is Not Working	Asiya Alimkhanovna Khalimova , Neurologist of the Highest Qualification Category, Headache Specialist; member of IHS, AMM, the League of Neurologists prim and WFN (Almaty, Kazakhstan)
15.10-15.30	From a Local Trigger to Systemic Control: A Step Forward in the Pharmacotherapy of Myofascial Pain	Inna Vyacheslavovna Artemyeva , Neurologist, Deputy Director for Clinical Affairs of The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); member of IASP, INS, MDS, the League of Neurologists prim and WFN (Almaty, Kazakhstan)
15.30-15.40	Discussion. Open microphone	
15.40-16.10	Coffee break	
16.10-17.40	Symposium "Neuro-Ophthalmology: Science and Practice" Moderators: E. L. Khalbayeva, K. G. Zhumagulova, T. K. Utaganova, D. Ye. Isakhanova	
	Presentation topic	Speaker
16.10-16.30	Optic Nerve Involvement in Demyelinating Diseases of the Central Nervous System	Ekaterina Leonidovna Khalbayeva , Candidate of Medical Sciences, Neuro-Ophthalmologist, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; Department of Ophthalmology, Kazakhstan-Russian Medical University (non-governmental educational institution); member of the League of Neurologists prim and WFN (Almaty, Kazakhstan);

		Kulparam Gabibulovna Zhumagulova , Candidate of Medical Sciences, Neurologist of the Highest Qualification Category, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; Associate Professor, the Neurology Course Kazakhstan's Medical University "KSPH"; member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
16.30-16.50	The Fixed Gaze: What Lies Behind Extraocular Muscle Paresis	Elmira Muratovna Vaisova , Neurologist of the Highest Qualification Category, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
16.50-17.10	Beyond Multiple Sclerosis: Features of Neuromyelitis Optica Spectrum Disorder	Zarina Arystanovna Nurlanova , Neurologist of the Highest Qualification Category, Master of Medical Sciences, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev ; Assistant Professor, Department of General Medical Practice No. 2, S. D. Asfendiyarov Kazakh National Medical University (non -profit JSC); member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
17.10-17.30	The Optic Nerve as a Target of Herpesvirus Infection: From Neuritis to Neurochorioretinitis	Dzhamilya Yerkinovna Isakhanova , Candidate of Medical Sciences, Ophthalmologist, Associate Professor, Department of Surgery, Al -Farabi Kazakh National University (non -profit JSC) (Almaty, Kazakhstan)
17.30-17.40	Discussion. Open microphone	
17.40-19.00	Symposium "Neurological Syndromes and Their Interpretation in Neurological Practice" Moderators: K. G. Zhumagulova, B. S. Zhiyenbayeva	
	Presentation topic	Speaker
17.40-18.00	Pathological Muscle Fatigability in Neurological Practice	Inna Vyacheslavovna Artemyeva , Neurologist, Deputy Director for Clinical Affairs of The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev ; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non -profit JSC); member of IASP, INS, MDS, the League of Neurologists prim and WFN (Almaty, Kazakhstan)

18.00-18.15	Flaccid Tetraparesis: Differential Diagnosis	Elmira Muratovna Vaisova , Neurologist of the Highest Qualification Category, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
18.15-18.30	Cyclic Vomiting Syndrome in an Adult: A Clinical Case	Zhadyra Sagidullayevna Dautova , Neurologist, Senior Lecturer, Department of General Medical Practice, Higher School of Medicine, Al -Farabi Kazakh National University (non -profit JSC) (Almaty, Kazakhstan)
18.30-18.45	Cognitive Impairment in Neurological Practice	Adlet Akhmetovich Mukhamedzhanov , Neurologist, The Institute of Neurology and Neurorehabilitation named after Smagul Kaishibayev; Assistant Lecturer, Department of General Medical Practice, Higher School of Medicine, Al-Farabi Kazakh National University (non-profit JSC); member of the League of Neurologists prim and WFN (Almaty, Kazakhstan)
18.45-19.00	Discussion. Open microphone Closing of the Conference	

10 October 2026 – Day Three

08.00-09.00	Registration
09.00-18.00	Workshop “Movement Disorders” (paid participation) Moderator Altynai Sagidullayevna Karimova, Candidate of Medical Sciences, Associate Professor, Department of Biophysics, Biomedicine and Neuroscience, Al-Farabi Kazakh National University (nonprofit JSC); Head of AltaNeuro Medical Centre; member of the League of Neurologists primand WFN (Almaty, Kazakhstan)
1. The Clinical Eye: Reading a Patient’s Gait, Movements, Speech and Posture (A. S. Karimova) 2. Phenomenology of Movement Disorders (A. S. Karimova) 3. Clinical Interviewing of Patients with Movement Disorders (A. S. Karimova) 4. Examination of a Patient with Bradykinesia/Hypokinesia (G. B. Shider) 5. Differential Diagnosis of Bradykinetic Disorders (G. B. Shider) 6. Examination of a Patient with Hyperkinesia (A. S. Karimova) 7. Differential Diagnosis of Hyperkinetic Disorders (A. S. Karimova) 8. Examination of a Patient with Ataxia (A. S. Karimova) 9. Differential Diagnosis of Ataxic Disorders (A. S. Karimova) 10. Non-Motor Symptoms of Movement Disorders: What to Look For (A. K. Nagashybay) 11. Neuroimaging in Movement Disorders: What to Order and What to Look For (M. S. Saifullakzy) 12. Laboratory Diagnostics to Support the Neurologist (A. A. Mukhamedzhanov) 13. Genetics of Movement Disorders: Inherited Neurological Diseases Associated with Impaired Autophagy (R. B. Kaiyrzhanov) 14. Pharmacological Treatment of Movement Disorders (A. S. Karimova) 15. Rehabilitation for Movement Disorders (A. S. Karimova) 16. Surgical Treatment of Movement Disorders (F. B. Sultamuratova) 17. There Is Hope: Innovative Approaches and Promising Research in the Treatment of Movement Disorders (A. A. Mukhamedzhanov)	
Discussion. Closing remarks.	

08.00-09.00	Registration
09.00-18.30	ONE-DAY HEADACHE SCHOOL "Headache: From the Presenting Complaint to Diagnosis and Patient Management" (paid participation) Trainer: Roman Petrovich Lyssenko , Neurologist, President of the Association for the Study of Headache; member of the League of Neurologists prim and WFN; Head of Clinic Dr. Lyssenko (Almaty, Kazakhstan)
1. Headache in clinical practice. Relevance, burden, ICHD -3 classification and diagnostic principles. 2. The first consultation with a patient with headache. An algorithm for history -taking, clinical examination and headache diary assessment. 3. Primary or secondary headache? Red flags, SNNOOP10, and indications for neuroimaging, vascular investigations and lumbar puncture. 4. Migraine. Clinical criteria, migraine with and without aura, episodic and chronic migraine, and differential diagnosis. Current approaches to acute and preventive treatment. 5. Botulinum toxin therapy for chronic migraine. Indications, the PREEMPT protocol, anatomy and injection techniques, dosing, treatment intervals, and assessment of efficacy and treatment duration. 6. Tension-type headache and medication -overuse headache. Diagnosis, differential diagnosis and treatment. 7. Trigeminal autonomic cephalalgias. Cluster headache, paroxysmal hemicrania, SUNCT/SUNA and hemicrania continua: diagnosis and treatment. 8. Greater occipital nerve block. Its role in migraine and cluster headache, indications, anatomical landmarks, technique, choice of medication, efficacy and safety. 9. Headache in children and adolescents. Age -related clinical features, diagnosis of primary and secondary headaches, red flags, and considerations for acute and preventive treatment. 10. Cervicogenic headache and other clinically significant secondary headaches. Differential diagnosis and choice of investigations. 11. Clinical workshop. Case discussions involving different headache types: from presenting complaints and diagnostic criteria to the selection of investigations, acute treatment, preventive treatment and interventional therapy. 12. A final algorithm for headache management. Questions and discussion.	
Discussion. Closing remarks.	

10.30-11.00

Workshop “TMS in Post-Stroke Neurorehabilitation: From Assessment to Protocol” at the Medical Solutions stand (free admission)

Trainer: Sholpan Bakht-Polatovna Daniyarova, Neurorehabilitation Specialist, Clinical Neurophysiologist, Unique Champion Centre for Adaptive Sports and Sports Wellness, Basqa Development Space (Shymkent, Kazakhstan)

1. Neurophysiological rationale: why TMS works in stroke. Interhemispheric imbalance in excitability, the interhemispheric inhibition model, and the role of EEG in selecting the stimulation site and frequency.
2. Clinical case(s): a borderline or complex case that broadens the audience’s perspective beyond stroke alone.
3. The role of TMS in a multimodal protocol: integration with standard rehabilitation.
4. Review of protocol parameters: frequency, stimulation site, treatment course and safety criteria for adults.

Discussion. Closing remarks.

***Minor changes to the program are possible.**
